- (b) the state of government regulations that might prevent or impose special conditions on attendance by any Federation Affiliate member,
- (c) the estimated requirements for financing the congress and exhibition.

Section 3

Four years before the congress the Administrative Council shall formally select a host organization, on the basis of the above proposals and any supplementary information, which will then be authorized to commit major funds (e.g. in site booking). At this time the Administrative Council may indicate preference

for particular sites (particularly as it may affect style of the congress and overall cost of attendance) but the host organization may need to be given ultimate discretion to choose in the light of local circumstances. At this time also a congress organizing committee shall be formally established with agreed arrangements for representation by and communication with the Administrative Council.

Section 4

Two years before the congress, the following actions shall be taken:

This shall include estimated attendance, proposed registration fee and exhibition charges, and shall also indicate currently available scales of hotel charges. The number of hotel rooms reserved, space estimated and facilities for the Meeting shall also be reported.

(b) At the same time the Administrative Council and host organization together shall formulate a scientific program policy. Section 6

Publicity for the congress shall be coordinated with the host organization (including announcements and letterheads) and shall clearly indicate that it is under the auspices of the Federation. The host organization shall make use of the title "AFSUMB '92," "AFSUMB 1992," and the like, as well as the AFSUMB logo.

Section 7

Timely reports at regular intervals (and/or at the request for Administrative Council) shall be provided by the host organization to the Administrative Council on the progress of preparations for the meeting including financial status and problems encountered.

Section 10

Division of Meeting Surplus Revenue: Due to specific organizational variances, the AFSUMB may negotiate an alternate agreement with the host society. Ideally, this activity will take place by the time the contract is awarded. If an alternate agreement is not made with the host society, the division of the meeting surplus revenue may be as follows:

- 70%-Host organization(s) • 30%-The Federation

Section 11

If the Federation Congress is held at the same time as the normally scheduled meeting of the host organization, there shall be established a minimum level of surplus to be guaranteed to the host organization. The guaranteed minimum surplus shall be determined by averaging the surplus of the host organization's annual meeting over the four year period prior to the joint conference.

Section 12

Should the Congress suffer a loss, the distribution of this loss will be in proportion to the advance funds contributed, and the Federation's maximum liability will be limited to its advance funds contribution.

26. PUBLICATIONS

The Federation shall be empowered to publish or to enter into agreement with others to publish such journals and other publications as may be authorized by the General Assembly.

Subj:- Report on progress of preparations for AFSUMB 2022 congress

Dear Sir

There has been a little delay in the progress due to the restrictions posed by the ongoing pandemic, although we still have ample time in hand.

Two major objectives achieved are:

1. We have been in correspondence with the proposed venue i.e the Hyderabad International Convention Centre (HICC). We have blocked our preferred dates for the congress – 11th to 13th November 2022. Further negotiations will proceed once we are able to visit their offices to discuss and then a contract will be signed.

The conference venue proposed is the Hyderabad International Convention Centre. Built on a 15 acre landscaped environment, HICC has an unsupported internal hall space of net 6,480 sq. meters. It can be partitioned into six halls in an open capacity, each holding up to 400 tables in Banquet setting and 6,000 in cocktail setting. HICC was awarded “Best Convention Center” from 2008 -2018 consecutively. State of the Art IT infrastructure, design, technology, telecommunications, Audio-Visual and other facilities are available in house. Cutting edge design features with environmental sustainability with 32 Break-out rooms.

The Novotel Hotel - adjacent to HICC is Hyderabad’s finest purpose built business hotel specifically designed for the international business traveler. It offer 287 rooms

2. We have been in talks with various other professional societies in the field of ultrasound in India. Following Indian societies have confirmed collaboration and participation in AFSUMB 2022:

- Society of Fetal Medicine
- Musculoskeletal Ultrasound Society
- Breast Imaging Society of India

3. We are now in the process of selecting an event manager. We have asked for bids from few reputed names in this field, and will be selecting one in the next few months.

As has been mentioned in my last report, we propose to have a multi-disciplinary programme with parallel sessions in 4-5 halls on Abdomen, Musculo-skeletal system, CEUS / ARFI/ Elastography, Cardio-vascular Ultrasound, Small parts – Thyroid, Breast, Scrotum etc, Obstetrics & Gynecology, Emergency medicine & Intensive care, Pediatric ultrasound, Interventional ultrasound.

The registration fees will be structured according to the timing from the dates of the conference. In my last report, we had proposed to start with Rs 10,000 for the local and US \$ 300 for international delegates as early bird registration. We might have to rethink on the whole budget as this covid pandemic has changed the whole scenario with introduction and rising popularity of online events and conferences. I foresee that competing with online events would be a very difficult proposition as the budgets will be totally on a different scale.

I would request the AFSUMB office to provide us a copy, if there is a document on guideline and protocols for the Congress.

Thanking you
Yours sincerely

Minutes:

Dr. KY Leung welcome all for attending the EC meeting.

1. Updated Report on the AFSUMB Workshop in Dhaka 2019

Prof. Bala had sent the updated report (Appendix 1) to EC before this meeting, and reported that the meeting was held successfully.

2. Report on the AFSUMB Workshop in Jakarta 2019

Dr. Sidharta had sent the program (Appendix 2) to EC before this meeting, and reported that there were 210 participants in this workshop.

3. AFSUMB workshops in 2020

So far, only two proposals, one from Mongolia Society and the other from Nepal Society, had been received.

The proposal from Mongolia Society had been submitted to EC by Dr. D.Enkhbaya and he explained the proposal during the meeting. They planned to organize the 8th WFUMB Workshop in 23 July, 2020 on 'Urogenital Ultrasound' and AFSUMB Workshop on 24-25 July, 2020 on 'Liver ultrasound'. As the proposed dates are near the AFSUMB Congress dates in Beijing (27-30 August 2020), an alternative is to hold the AFSUMB workshop on 22-23th May, 2020. However, these dates in May would overlap an ultrasound meeting in Japan as pointed out by Prof. Iwaki Akiyama. After some discussion, it was decided that EC support the proposed AFSUMB workshop to be organized on 24-25 July 2020. Prof. YL Wan suggested increasing the scope to 'Abdomen ultrasound'.

The proposal from Nepal Society was submitted to EC by Prof. Mukhtar Alam Ansari, President, Ultrasound Society of Nepal. They would like to organize the AFSUMB Sponsored workshop on 24-25 April 2020 at

Kathmandu. Prof. Bala commented that April was a good season in Nepal, and Prof. Ansari had experience of organizing ultrasound workshops. The topic has not yet been decided. After some discussion, it was decided that EC support this proposed AFSUMB workshop.

(Post meeting notes: These two proposals were submitted to AC by EC, and were endorsed during the AC meeting on 29 November 2019.)

4. A request from Nepal for support of free screening service for breast cancer

A request on supporting free screening service for breast cancer was sent to EC by Dr. BR Joshi, President, Breast & Thyroid Society of Nepal (BATSON). The support might be equipment and or financial support for the initial two years for free breast cancer screening service so as to start this initiative in this part of the world for effective global health. At present, EC does not have the resources to support in this manner. Prof. YL Wan commented that mammogram is used for breast cancer screening, but not under the territory of ultrasound. BATSON is not affiliated to AFSUMB. After some discussion, it was decided that EC would advise Prof. Ansari to consider including breast sonography as one of the topics in the AFSUMB workshop 2020 in view of the local health need.

5. New Education programs- hands on workshops

Prof. WJ Lee reported a hands-on workshop was successfully held in October in Philippines. The program was attached in Appendix 3. Prof. Lee highlighted the focus of this workshop was on hands on training for young doctors. This program was industrial sponsored, and the sponsorship for a supervisor dispatched from EC Committee was limited to hotel accommodation, economy airfares, and an honorarium of US\$500 (but may be different depending on the host society's situation). Prof. Lee planned to organize this kind of hands-on workshop in different areas (South-East Asia as well as other countries) and by involving different industrial companies. Different ultrasound machines are used in different areas.

Dr. Gokhale proposed to hold such programs in South Asian Countries like Sri Lanka, Bhutan, Mauritius, Maldives and possibly in Nepal & Bangladesh. He had preliminary talks with the GE Healthcare South Asia manager for Ultrasound, discussed about the development of this program to hold two workshops in 2020. They will be, as Prof Lee had advised, AFSUMB accredited GE sponsored programs with local help. Dr. Gokhale would inform President, Secretary and EC chair about the developments. Prof. Bala mentioned this program could be extended to Southern Asia. After some discussions, it was decided that EC continue supporting this program, and Prof. Lee would coordinate.

2. Invitation of all the Past-presidents to the AFSUMB Congresses with waiver of their registration fees (By Dr. YL Wan)

As a courtesy to all the previous past presidents for their substantial contribution to AFSUMB , on behalf of the AFSUMB, I would like to propose that LOC of the AFSUMB Congress which is held every 2 years, will be able the waive their registration fee if those previous Presidents are interested in attending the AFSUMB Congress.

3. Support to the administration works of AFSUMB (By officers Drs. WJ Lee, YL Wan, A Iwaki, JY Cho, in pre-meeting before AFSUMB AC/GA meetings, held at 19:00 JST on August 12, 2020).

In the past 4 months, the administration works of the officers, especially those of Secretary's, had been overloaded, particularly for the preparation of online voting and online AC and GA meetings. The AFSUMB has no secretariat yet, because the society is not able to afford the annual compensation of around USD 15,000 to 18,000 to hire a full time secretariat. Our society needs assistants for papers' and official computers' work, these include letters, AC/GA meetings, Educational Workshops, Online Meetings, etc. It is suggested an allocation of USD 1,000 each year to secretary and president, respectively, so that they are able to hire a part time assistants to carry out the administration work.
